Join us at EuroGeo7!

We are pleased to announce that the 7th EuroGeo Conference will be held in Warsaw on the 6th-9th September 2020. The meeting will take place in the capital of Poland and its centrally located Palace of Culture and Science. The exhibition area will be designed so as to enable greater integration with the participants of the Conference. EuroGeo7 is organized by the Polish Chapter of the International Geosynthetics Society. The conference will focus on recent advances in all applications of geosynthetics. Attention will be given to the fundamentals as well as innovative technologies, with strong projects...

[International Geosynthetic Society](#)

The International Geosynthetic Society (IGS) is a learned society dedicated to the scientific and engineering development of geotextiles, geomembranes, related products, and associated technologies. The core purpose of the IGS is to provide the understanding of and promote the appropriate use of geosynthetic technology throughout the world.

By unsubscribing to this email, you will no longer receive messages from the International Geosynthetic Society, this includes the IGS News, information about events held under the auspices of the IGS, and other official communications regarding your membership including dues and electronic ballots, etc.
